

X350PTIJ Multipress

- Silver paint, tempered bars with lineal bearings for 50mm. diameter olympic discs and counter-balanced.
- Thanks to counter-balancer system the lifting bar weighs 14 kgs / 31 lbs, which makes it easier for all kind of users.
- High resistance 6 mm thick coated steel cable. For a smooth, secure performance.
- **Three layer coating.** The design of this professional, up-to-date, stylish system is enhanced still further by its -layer coating comprising an initial anti-corrosion primer, for guaranteed durability, followed by an epoxy powder layer and fin.
- **Designed for optimum exercise biomechanics.** Guarantee smooth, natural movements for full muscle concentration
- **Structure raised 50mm above floor level with rubber tipped feet.** This provides access for cleaning and vacuuming without scratching the paint.
- **Round edges with elliptical section in order to avoid cuts and knocks.**
- **Use of laser cutting technology.** For optimum tube cutting precision.
- **Stainless steel components,** designed to offer long-lasting durability.
- To guarantee smooth, natural movements for full muscle concentration.
- **Knock-proof.** Providing prevention against accidents. Very easy to clean.
- **Reinforced frame,** for more security and protection.
- **4 mm thick ST-37 / 40 steel frame.** High durability.

Specifications:

Length: 140 cm / 55"
Width: 193 cm / 76"
Height: 212 cm / 83"
Weight: 150 Kg / 331lbs
